

MISSION OF MAITREYA NEWSBRIEF JUNE, 2007

Revelations (The Voice Of God)

[READ](#) [LISTEN](#)

This is a new format that reflects the new shift of Focus for the Mission from explanation and answering the questions by **Maitreya**, to direct Revelation by God, starting 06/02/2007. In this format **Maitreya** will stay in the background and God will directly Reveal His Revelations to man.

There are several ways to listen to the audios of these **Revelations**. To hear them directly, click on the "listen" link (no quotes). To download them, right click on the link and then use the command "Save Target as ...," or you can go to our [FTP](#) site; to download files, click on the "download" link (again no quotes), find the date that the Revelation was given, and download the file to your computer. You can also read them by clicking on "read" (if it is available).

QUOTE OF THE MONTH

“The purpose of this universe is to turn around and go back to the Essence. The whole society and earth have to recognize the **Eternal Divine Path**, shatter their narrowness of mind and attachments, and indeed, concentrate outwardly toward the universe.

If they concentrate on earth there are limited resources and therefore they will have fights, destruction, and wars. But by concentrating outwardly, they will have unlimited resources and unlimited opportunities for jobs and economic growth. Therefore, instead of falling on themselves as they are doing now, polluting the earth, and destroying this fragile natural environment, they have to concentrate outward, become one, create jobs for everyone, and know how to make other planets livable, or find planets that are already livable.”

GLOSSARY WORD OF THE MONTH

[Self-Centeredness](#): to be only concerned about the self and its mundane needs (selfishness).

Self-centeredness means to feel separate from the rest of the universe and to be unconcerned about the rest of creation. It is a feeling of not being a part of the universe and the universe a part of the self.

That is the essence of the feeling of separation, loneliness, and misery. That is the very reason people seek the company of others and feel lonely and lost when they are alone.

The opposite of being self-centered is to be other-centered or universally-centered. That is, to love the self because you love the whole universe, and because you are also a part of it. So you love yourself also, and you take care of the self and the rest of the universe for the same reason, because everything is God. A person with such a realization is never alone. He is always with God, and God is with him, even when in the company of others.

Contact Report from Turkey

Sal-OM

ATTG, this month more books in **THOTH** were translated to Turkish and uploaded to the website. (Children of Abram, The House of Judah, Creation and History...)

And also ATTG once again, more friends, family and some others met with the Teachings this month, that is all with His Grace. However, apparently, people need time to let things sink in. So we wait. Indeed, sincerely,

Thanks God for everything.
